SUMMARY

I am Associate Professor in the Department of Religion and Philosophy at Hong Kong Baptist University. After graduating from the Faculty of Medicine, National University of Singapore, I worked as a medical doctor for 7 years. I then completed my M.A. in philosophy at Biola University and Ph.D. in Theology at King's College London.

I have published 8 peer-reviewed monographs with world-leading academic publishers such as Cambridge University Press, Routledge, Springer Nature, and T&T Clark, in the fields of theology, philosophy of religion, historical-critical New Testament studies, and science and religion. I have published 40 peer-reviewed articles, including articles in leading international journals such as *Religious Studies* (Cambridge University Press) and *Journal of Theological Studies* (Oxford University Press), 11 book chapters, and 8 solicited book reviews.

The academic quality of my publications has been recognized by experts internationally. As a result, I have been elected as a Fellow of the prestigious International Society for Science and Religion, joining many of the most prominent scholars from top universities such as Oxford and Cambridge in this interdisciplinary field. I have been interviewed by the acclaimed documentary series *Closer to Truth: The Greatest Thinkers, The Deepest Questions*. I have been invited by scholars in the UK, USA, Canada, Germany, Russia, and China to contribute to various publication projects such as *The St Andrews Encyclopaedia of Theology*, *T&T Clark Companion to Analytic Theology*, *The Incarnation: Four Views*, *Contemporary Arguments in Natural Theology, Science, Scripture & Theology*, and a special issue on technology and religion in Brill's *Journal of Chinese Theology*. I have won the Faculty of Arts Outstanding Performance in Scholarly Work Award, and research funding from the Hong Kong Research Grants Council.

I have supervised postgraduate students, taught postgraduate and undergraduate courses, and developed new courses in science and religion at HKBU and University of Hong Kong. Because of my reputation for research and teaching, I have been invited to deliver lectures at leading universities such as Harvard and Oxford, and at seminaries and churches around the world.

I am a founding committee member of the AI and Ethics Research Centre, HKBU and Shanghai University, a Research Fellow of the Centre for Sino-Christian Studies, and the Chair of Assessment Committee and General Education Committee. I have also served as Vice President of Asian Society for Philosophy of Religion and Society for Science and Religion in Asia.
